Review

“ ... contains a wide range of expected work (or samples of it, like three books from *Paradise Lost*, Marvell’s “*To His Coy Mistress*”, Blake’s “*The Tyger*” and Burns’s “*To a Mouse*”) but also a representative selection of literature from women writers (the problematic of regarding literature by gender is itself of interest) and enough of a general context to give a coherent impression over a period often compartmentalized differently (say, into centuries).

The editor provides a helpful introduction with historical and cultural background. There is a select bibliography at the end, along with an index of titles and first lines. The editorial stance has been to modernize where necessary but not arbitrarily. Text and notes are well displayed on the page. A thematic index (gender, aesthetics, race/slavery, pastoral etc) is a useful feature. You get a lot for your money ... The paperback is sturdily-bound and should survive regular consultation. Looking across the period from the Civil War to Romanticism opens up perspectives unknown to silo-thinking by period, and it is a rich and varied period with more than a few things to delight and surprise.”

Stuart Hannabuss, Gray's School of Art, Aberdeen

From the Back Cover

The second edition of this successful anthology continues to challenge the boundaries of eighteenth-century literary study whilst thorough revisions make it even more useful to teachers and students. Changes for the second edition include:

- Dryden's major political poem, *Absalom and Achitophel* is now included, as is Aphra Behn's *The Golden Age*.
- Restoration drama is newly represented in Congreve's *The Way of the World*.
- Four key books (Books 1-2 and 9-10) of Milton's *Paradise Lost* are included instead of the full 12-book version.

At the same time, the features that made the anthology appealing in its first edition have been retained. The exceptional historical range of the texts, which span the period from the British Civil War to the French Revolution, and the inclusion of women writers have made this the anthology of choice for many courses.

Alongside the extensive representation of canonical texts, many reprinted in their entirety from earliest recoverable versions, DeMaria offers a selection of the literature of private and public life - court reports, letters, political ballads, and broadsides - illuminating the historical and cultural contexts in which the literary works were created.

Great anthology

By Edward Yarborough

This is an excellent anthology. It includes, in addition to the standard biggies such as Milton and Johnson, seldom reprinted authors such as Aphra Behn, Eliza Haywood, and Delariviere Manley, as well as some interesting contemporary documents such as court reports which aren't usually thought of as literature.

Review the book here, not the seller!

By Monsieur L'Ingrate

Note that the first reviewer, below, gives a one-star review of his experience buying the book, not the book itself. This seems to me an unfair (if unintentional) trashing of a pretty decent anthology.
