A meditation on friendship for English lit majors

By newsgirl

Three chapters (out of nine) are the most helpful: The Choice of Friendship, The Eclipse of Friendship and The Higher Friendship. While this short book is written in an ornate, looping style, it is is not without its charms. The author quotes frequently from the works of Shakespeare, Tennyson, Coleridge and the like, and especially the New Testament.

Hugh Black was obviously a good person and thus, he is a little naive, or maybe a tad too generous toward human nature.

Or maybe our world has become worse since this book was written. Certainly, the word "friend" has been co-opted by

social media to the point of meaninglessness and relationships based on proximity seem to be short-lived.

Don't expect standard self-help fare: You won't find much directly pertaining to flat-out users, those working out psychological needs by trying to be your friend or foul- weather "friends" who like you better when you're down and out.

It does make you think, though, especially about your own motivations.

And he ends with the Truth: God is the best, most reliable friend if you seek Him, and to this end, I recommend reading "The Interior Castle" by St. Teresa of Avila.

A library staple

By Amazon Customer

This short book written in 1898 is chock full of timeless wisdom on friendship (and life in general). It covers every aspect and form of friendship including the ultimate friendship - with God. I have read it several times and given away several copies to friends. It's a must-have in my library to refer to often, especially when I need a reminder about what really matters in life. It's my all-time favorite book.
