As an executive coach, I have found this book to be a great tool for helping people to better understand their values and beliefs on a wide range of life experiences. The stories or parables that Dr. Sampath has chosen are simple in construct and rich in insight. While offering advice to people is a necessary aspect of coaching, having people discover for themselves what they really need to focus on and change is more effective in the long run. This cool little book facilitates discovery and can be used in a group setting or in one-on-one engagements. I use it myself as a way to deepen my own reflection on being a better parent, husband, friend and worker.
