Waste of time and money

By lymabeau

This book was not written by George Lucas, or at least not THE George Lucas. This is garbage. If a fourth grader wanted to write a screenplay, he might find this book useful. It has tips such as "watch out for sharks" and give the first draft to someone else to review. There is nothing in this book that's relevant to an aspiring screenwriter. Just more self-published get-rich-quick trash.

Not Really a 4 Book Box Set!

By david repici

not sure it's worth \$10 other than providing some motivation and support for writing a script. It is listed as a 4 book box set but it's really just one small 50 page equivalent book.

Breaks it down in few words. Just like a script.

By J. Lee

This is written in such a way that takes the instruction down to the nubs. I was the Director of the Las Vegas Screenwriters Conference long ago.

It always drove me nuts when people would make screenwriting too complicated. This book tells you how to navigate your life and do's and don'ts. In a short time, it gave me my creative juices once again.
