The Destroyers: Rachel Notley and the NDP's War on Alberta is essential reading for anyone trying to understand Alberta's new government. Jam-packed with original research, The Destroyers meticulously documents the radical background of key NDP ministers, MLAs and staff, painting a shocking picture of a group of fringe extremists who were accidentally swept into power in May of 2015, without proper vetting. Notley's NDP are not here to govern Alberta, or to lead it. They're here to transform it, to terminate all of the Alberta qualities that they've been railing against on picket lines and in protests for decades — its culture of entrepreneurialism, its prosperous oil and gas industry, and its culture of freedom. That's why the book is called The Destroyers. And that's why everyone in the province should read this quick, fact-packed book, to make sense of the madness.

Sheila Gunn Reid and The Rebel reveal the inner workings of the NDP Government in Alberta

By Amazon Customer

Great insight into the NDP Government of Alberta wreaking havoc on the once great province.

Province of Alberta, Canada, under National Democratic Party rule

By Timothy Hoff

The Destroyers is a critique of the government of the Province of Alberta under the leadership of the Hon. Rachel Notley, who became Premier of the Province in 2015. Notley is a member of the NDP, the National Democratic Party, which is variously considered left or centre-left. Reid is dismayed at what she regards as economic and social policies that have resulted in unemployment in the oil and gas industry as well as programs disfavored, Reid asserts, by most Albertans. The Amazon web page for this book misleadingly states that it relates to United States Local Government. It is emphatically Canadian. I read the book on a Kindle app, having downloaded it in at no cost in Kindle format at the TheRebel.media. It is a well edited

political screed by an informed conservative critic.

Every Albertan needs to digest this book.

By Amazon Customer

Sheila Reid lends straight up insight to the realities of those who were elected to the Alberta legislature and brings to light why the NDP is such a dangerous government. Everything in this book can be fact checked. It truly shows the lack of any common sense, actually more the ignorance of the NDP leadership and it's members. Many of them are nothing more than anti-establishment activists. Anyone who wants to know the realities and the destruction being caused by this government needs to read and truly digest this information. Most importantly those who are young and voted for the NDP for whatever reasons they did, need to understand how much they themselves are also being hurt. The NDP has a history of destroying no matter where they go. This book makes it clear why and how, and every person old enough to vote needs to make this mandatory reading.
