## Review

'..'.The Hebrew and Aramaic Lexicon of the Old Testament includes a large amount of valuable new material, and it is the most up-to-date, and in several ways the best, modern lexicon of the Old Testament in Hebrew.'

J.A. Emerton, "Vetus Testamentum

""The editor, Mervyn Richardson, and the publisher have done extremely well in the preparation of the English version of Koehler and Baumgartner's well-known dictionary. It is clear, well set out and even more attractive than the original German edition. The dictionary in this new form will have a very good future and will compete very well with other works now appearing.'

Professor James Barr, "The Divinity School, Vanderbilt University, Nashville, Tennessee

'..'. an extremely attractively produced and easy to use lexicon, which will be essential for all students of Hebrew and which will greatly assist them in their reading of the Old Testament.'

The Expository Times.

""The publishers should be commended for making Koehler/Baumgartner Lexicon available in a Hebrew/Aramaic-English version and for their commitment to complete the project in a relatively short period of time. This edition will certainly be an indispensable reference tool for years to come, one which all serious interpreters of the Old Testament must consult.'

Robert B. Chisholm Jr., "Biblioteca Sacra.

'..'.includes a large amount of valuable new material, and it is the most up-to-date, and in several ways the best, modern lexicon of the Old Testament in Hebrew.'

# **THE HEBREW AND ARAMAIC LEXICON OF THE OLD TESTAMENT, 2 VOLUME SET BY KOEHLER, BAUMGARTNER, STAMM PDF**

Brill is pleased to present this Study Edition of the "The Hebrew and Aramaic Lexicon of the Old Testament" in two handy volumes. It has proven to be a valuable resource for scholars and students. In this Study Edition the complete vocabulary of the Hebrew Bible, including those parts of books which are written in Aramaic, is available. The dictionary combines scholarly thoroughness with easy accessibility, and so meets the needs of a wide range of users. The enormous advances that have taken place in the field of Semitic linguistics since the days of the older dictionaries of Classical Hebrew are well documented and assessed, as well as the often detailed discussions in modern Bible commentaries of words where the meaning is particularly difficult. But the alphabetical ordering of entries rather than the traditional arrangement of words according to their roots is particularly helpful to the new student, and also saves the advanced user much time. This 2 volume edition is an unabridged version of the five volume edition of The Hebrew and Aramaic Lexicon of the Old Testament. This set replaces the 5-volume set with ISBN 9789004119567.

Koehler - Baumgartner

By AJ

This lexicon should be in the library of anyone seeking to understand the deeper meanings of Hebrew words in Tanach. No one text stands alone in that regard; however, it is felt that Koehler - Baumgartner is indispensable for any serious student of Biblical Hebrew, and everyone is a student of this wonderful language. The 2-volume unabridged study edition is affordable and is more space efficient on the shelf. Buy this one with confidence.

Great Lexicon—for certain people.

By Amazon Customer

This lexicon is wonderful, but for many people, it's simply too much and a waste of money. The discussion of cognate languages and vast amounts of information concerning all the verses and uses of each word will overwhelm you if you're just beginning to learn the language, or if you're a pastor who wants to under gird a sermon with some Hebrew. In that case, I suggest getting the Concise Hebrew and Aramaic Lexicon of the Old Testament (by Holladay) as it is a paired down version of this lexicon.

If, however, you want to dig deeper into Biblical Hebrew, or if you intend on going into scholarship, then this lexicon (colloquially known as HALOT) is a must have, along with the "Dictionary of Classical Hebrew" (again, for those who don't want to dig so deep, the concise version is out as well, and is a wonderful resource, even for scholars who want a concise lexicon for daily use). HALOT has strong scholarship and comes from a different tradition than BDB/Gesenius. Thus, entries are listed according to spelling, rather than the tri-radical root, and the old source theory notes found in BDB are absent (and not much of a loss, especially considering the linguistic work that backs each entry).

tl;dr if you want to dig deep, by this lexicon, and use it. If you want something to just help with translations, buy the concise version, or the Concise Dictionary of Classical Hebrew for a fifth of the price, or less.

The best resource

By Frederic C Putnam

The best English lexicon of biblical Hebrew & Aramaic, KBL is also easier to use than the classic BDB. Words are listed alphabetically, rather than grouped by root, with cross-references to other words from the same root (no more trying to figure out a noun's putative "verbal root"). Akkadian tends to dominate the etymological information, rather than Arabic), along with Ugaritic. Glosses tend to be traditional, although references within the articles and the extensive supplementary bibliography (84 pages; alphabetically by author) allow you to find narrative lexical discussions. The Aramaic section is outstanding, with citations ranging far beyond biblical Aramaic. Although some might be tempted to begin with an "intermediate" lexicon such as Holladay, KBL's layout, clarity, and wealth of information makes this appropriate for both beginning students, pastors, teachers, and other scholars.
