95% identical to 2nd edition

By Meredith Lawler

I loved the second edition of this book and was very much looking forward to this updated version. For the eight schools I've read so far, however, only the stats section at the beginning of each school is updated -- the content is 99% word for word the same as the second edition, including quotes from students and faculty, taken seven years ago now. I am certain most schools' on-campus culture, academics, and facilities have

evolved during that time, and it would have been nice to see a fresh 2016 perspective. I was hoping for updated narrative sections for the schools I was excited to read about in this edition, but was disappointed.
