The Wealth of Nations, Adam Smith

From the Back Cover

That Machiavelli's name has become synonymous with cold-eyed political calculation only heightens the intrinsic fascination of The Prince - the world's pre-eminent how-to manual on the art of getting and keeping power, and one of the literary landmarks of the Italian Renaissance. Written in a vigorous, straightforward style which reflects its author's realism, this treatise on states, statecraft, and the ideal ruler is essential reading for anyone seeking to understand how human society actually works.

The difference is that you may not require move the book [The Prince \(Dover Thrift Editions\) By Niccolò Machiavelli](#) location to place. You may need just copy to the various other devices.

# **THE PRINCE (DOVER THRIFT EDITIONS) BY NICCOLÒ MACHIAVELLI PDF**

As a young Florentine envoy to the courts of France and the Italian principalities, Niccolò Machiavelli (1469–1527) was able to observe firsthand the lives of people strongly united under one powerful ruler. His fascination with that political rarity and his intense desire to see the Medici family assume a similar role in Italy provided the foundation for his "primer for princes." In this classic guide to acquiring and maintaining political power, Machiavelli used a rational approach to advise prospective rulers, developing logical arguments and alternatives for a number of potential problems, among them governing hereditary monarchies, dealing with colonies and the treatment of conquered peoples. Refreshing in its directness, yet often disturbing in its cold practicality, *The Prince* sets down a frighteningly pragmatic formula for political fortune. Starkly relevant to the political upheavals of the 20th century, this calculating prescription for power remains today, nearly 500 years after it was written, a timely and startling lesson in the practice of autocratic rule that continues to be much read and studied by students, scholars and general readers as well.

Dante chronicles his time and shows us today. The names change but...

By Doug Smith

Luckily it's not too many pages because I look forward to spending some undisturbed time reading it again. I am very far from an historian but kept hearing about Machiavellian plots so I was intrigued. I read through it in very distracting circumstances at work here and there. But, what I did grasp is that many documented historical examples show that princes (people/governments/religions) are warlike, evil, ambitious, and unbelievably devious to further their own positions and possessions. It also chronicles how the Church/Popes weave into history as being no better (exactly the same) as Princes. A good read. Definitely recommend.

Read prior to this: *The Church in History* by Episcopalian Theologian John E. Booty.

Currently reading: *Dante's Divine Comedy*.

Classic book but literal translation is a bit hard to read

By B. Noble

A classic book well worth reading--but this edition reads like a literal translation. If you would like a feel of the original, go ahead but if you want just read it, get another translation.

Four Stars

By Amazon Customer

Enjoyed the read. Less than 100 pages. Most people use the term "Machiavellian" incorrectly.
