Dakota Lewis wanted only one thing-his wife! By law, Kathy Lewis was still married to him, but she was not under his roof...in his bed. This bold modern Native American warrior had faced many fights, but confronting the painful truth of why she'd walked out might be an even tougher ordeal. Bitterly regretting that he hadn't been there when his Kathy needed him most, Dakota was now fully determined never to leave her side again....

it took forever for them to finally talk openly

By RomReader

Estranged wife sees her husband Hero again after she suddenly left him 3 years before. They have to pretend to be happily married to find the culprit who's planning on sabotaging the royalty of a little European kingdom. Their work together shows them they still have strong feelings for each other. But heroine can see that Hero is still very much married to his military career. Hero on the other hand still doesn't understand why she left what he thought was a good marriage. When will these 2 openly talk about what happened in the past?

It took until page 142 for Hero & heroine to finally talk about why she left him 3 years ago. For 141 pages, they tiptoed around the issue. Their marriage must've been based on sex & niceties if these 2 couldn't even talk about why she left for weeks when they say each other again & not even considering the 3 years that passed when they could've emailed or phoned or wrote each other. Heroine wanted Hero to prove she meant more to him than his military job by chasing after her when she left him. But he didn't because of his pride & this strange sense of respecting her space. So she keeps her miscarriage & her feelings about being abandoned by Hero due to his job a secret all that time. While Hero kept his love & waiting for heroine to go back to him all to himself too. These 2 were driving me nuts with their passivity & secret pinings! The sexual chemistry was good but it was pretty much the only thing going for them. The only other thing I liked about these 2 were that both remained celibate during their 3-year estrangement.

The action-suspense parts were predictable & uninteresting. They seem like page-fillers & gave an excuse for the main characters to see each other again. Overall pacing dragged.

Minimally recommended.

Mediocre

By Cloggie Downunder

Tycoon Warrior is a book by Sheri Whitefeather in the Texas Cattleman's Club: Lone Star Jewels series. Dakota Lewis, ex-soldier, is still involved in dangerous missions. And it was during such a mission that his wife, Kathy left him. But she has never told him why, and she is beginning to feel guilty about that. For one thing, she still loves him. For another, she might just be asking something of Dakota that is unreasonable. This is a somewhat tedious romance that pivots on the lack of communication between husband and wife. The hero is rather too perfect; the heroine, simply frustrating. It is part of a series, but can be read as a stand-alone. It would have benefitted from some judicious editing. Mediocre.

The story drags

By Becka

This is the second story in this series that was like this: there is no communication between the main characters and the story drags out until it is almost painful. No... it was painful! I kept hoping that there was more to the story than regrets and sadness, but I ended up pretty disappointed. Especially at the end with the way the characters reacted to something very important that would affect the rest of their lives. I want to say more, but I don't want to give out spoilers... so I'll say I should have went with my gut and passed on this one. 2 1/2 stars
